TARIFF FORMAT

**A. Leaf Numbering** - Leaf numbers appear in the upper right corner of the page and are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages already in effect, a letter is added. For example, a leaf added between Leaf 14 and 15 would be 14.A.

**B. Leaf Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the NYPSC. For example, the 4<sup>th</sup> revised Leaf 14 cancels the 3rd revised Leaf 14. Because of various suspension periods, deferrals, etc. the NYPSC follows in its tariff approval process, the most current page number on file with the Commission is not always the tariff pages in effect. Consult the check page for the page currently in effect.

**C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:

- 2.
- 2.1.
- 2.1.1.
- 2.1.1.A.
- 2.1.1.A.1.
- 2.1.1.A.1.(a).
- 2.1.1.A.1.(a).I.
- 2.1.1.A.1.(a).I.(i).
- 2.1.1.A.1.(a).I.(i).(1).

EXPLANATION OF SYMBOLS

When changes are made in any tariff sheet, a revised sheet will be issued canceling the tariff sheet affected. Changes will be identified on the revised sheet(s) through the use of the following symbols:

- (C) To signify changed rate, regulation or condition.
- (D) To signify discontinued rate, regulation or condition.
- (I) To signify a rate increase
- (M) To signify material relocated from one page to another without change.
- (N) To signify new material, including a listing, rate, regulation, rule or condition.
- (R) To signify a rate reduction
- (T) To signify a change in the word of text, but no change in the rate, rule or condition.

The surcharge shall be applicable to bills subject to the tax enactment that are rendered on or after the effective date of the rate schedule. If the tax enactment either ceases to be effective or is modified so as to reduce the tax rate, the surcharge will be changed accordingly within 5 business days.

Introduction, cancellation, or modification of a surcharge will be effective on the date of the Customer's first bill rendered after the effective date of the change.

SECTION 2.0 - REGULATIONS, (CONT'D.)

The Company reserves all rights to any telephone number assigned to a Customer for local service.

When service in an existing location is continued for a new Customer, the existing number may be retained by the new Customer only if the former Customer consents in writing, and if all charges against the account are paid or assumed by the new Customer.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.17 Additional Provisions Applicable to Residential Customers, (Cont'd.)

## 2.17.3 Installment Billing For Nonrecurring Charges

A residential Customer may elect to pay service connection and other nonrecurring charges associated with a service order in monthly installments for up to a 12 month period. When installment billing is requested, all nonrecurring charges associated with a given service order will be included in the calculation of the monthly installment.

Installment billing is subject to the following restrictions:

- .1 Installment billing may be used only by residential Customers;
- .2 Charges will be billed in the number of installments of equal dollar amounts as requested by the Customer up to a maximum of 12 installments over the course of 12 months;
- .3 A Customer may not pay a portion of the charges and then request installment billing for the remaining charges;
- .4 More than one installment plan may be in effect for the same Customer at the same time;

## 2.17 Additional Provisions Applicable to Residential Customers, (Cont'd.)

## 2.17.5 Suspension or Termination for Nonpayment

- .1 Suspension/termination notices may not be issued until at least 25 days after the date of the bill. Bills must be mailed to the Customer no later than 6 business days after the date of the bill.
- .2 After issuing the written notification in accordance with the terms of this Tariff, at least one attempt shall be made during non-working hours to contact the residential Customer by telephone before the scheduled date of suspension/termination.
- .3 Suspension/termination may occur only between the hours of 8 a.m. and 4 p.m. Monday through Thursday, and between the hours of 8 a.m. and 3 p.m. on Friday, provided that such day or the following day is not a public holiday or a day on which the main office is closed. In addition, service may not be disconnected during the periods of December 23 through the 26 and December 30 through January 2.
- .4 Telephone service may be suspended or terminated for nonpayment of the undisputed portion of a disputed bill or deposit if the Customer does not pay the undisputed portion after being asked to do so. Suspended or terminated residential service shall be reconnected within 24 hours following payment or within 24 hours of the end of circumstances beyond the Company's control which delay the reconnection. The Commission may direct that service be reconnected in less than 24 hours.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.17 Additional Provisions Applicable to Residential Customers, (Cont'd.)

## 2.17.6 Deferred Payment Agreements

Service will not be suspended or terminated unless the Customer has been advised that a deferred payment plan can be arranged. An existing residential Customer with three or more months service and for whom service has not been terminated for nonpayment is eligible for Deferred Payment Arrangements (DPA). The Company must offer an eligible Customer a DPA in accordance with the Commission's order in Case 90-C-1148 issued on August 7, 1992. Final notice of suspension/termination will advise the Customer of deferred payment arrangements and will include, in bold print, a notice that assistance in reaching an agreement may be obtained from the Commission. The DPA notice will be mailed no less than six days before termination of total service.

A Deferred Payment Agreement will be for a period agreed to by both the Customer and the Company.

If the Company believes that the Customer has the resources to pay the bill, it shall notify both the Customer and the Commission in writing of the reasons for its belief. The Commission shall make the final determination as to whether a DPA should be provided. A Customer with medical emergencies and a Customer who is elderly, blind or disabled shall be exempt from such eligibility criteria.

## 2.17.7 Dishonored Checks

When a check received from a residential Customer is dishonored, the company shall make two attempts, one outside of normal business hours, to contact the Customer within 24 hours. The Customer shall be given an additional 24 hours to pay before suspension/termination. The additional notice will be given provided that the Customer has not submitted a dishonored check within the past 12 months.

## 2.17.8 Suspension or Termination - Abandonment

Suspension/termination of residential service for abandonment or unauthorized use may occur only after the Company makes a reasonable attempt to determine occupancy or authorized use, or the Customer takes reasonable steps to prevent unauthorized use. A notice must be sent to the Customer five days before such suspension or termination. The notification requirement is waived when previous mailings are returned by the Post Office or the Company is advised that a new Customer has moved into the location.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.17 Additional Provisions Applicable to Residential Customers, (Cont'd.)

## 2.17.9 Suspension or Termination - Medical Emergencies

In the event of a medical emergency as defined in 16NYCRR, Sec. 609.5, an additional 30 days will be allowed for a residential Customer before suspension or termination. A medical certificate as defined in 16NYCRR, Sec. 609.5, must be supplied. The medical emergency status may be extended beyond 30 days upon submission of specified documentation. During the emergency, the Customer will be able to defer payment of monthly charges up to an amount specified by the Commission until the emergency ceases or it is determined that the Customer has the ability to pay the charges. Charges in any month in excess of the amount specified are due by the due date of the bill.

## 2.17.10 Suspension or Termination - Elderly, Blind or Disabled

An additional 20 days will be allowed before suspension or termination may occur when:

- a) the Customer is known to or identified to the Company as being blind or disabled, as defined in 16NYCRR, Sec. 609.5, or
- b) the Customer is 62 years of age or older, and all other residents of the Customer's household are: under 18 years of age, over 62 years of age, blind or disabled.

In cases where service has been suspended or terminated and the Company subsequently learns that the Customer is entitled to the protection established herein, the Company shall within 24 hours of such notification restore service for an additional 20 days and make a diligent effort to contact in person an adult resident at the Customer's premises for the purpose of devising a payment plan.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.17 Additional Provisions Applicable to Residential Customers, (Cont'd.)

## 2.17.11 Backbilling for Residential Customers

The Company shall not charge a residential Customer for previously unbilled service or adjust upward a bill previously rendered when the period for the unbilled service or billing adjustment is more than 24 months prior to the mailing of the bill or the upward adjustment for service to the residential Customer unless the culpable conduct of the Customer caused or contributed to the failure of the Company to render timely or accurate billing. If the Customer is liable for any service and the delay in billing was not due to the culpable conduct of the Customer, the Company shall explain the reason for the late billing and shall advise the Customer that suspension/termination of service is not permitted for nonpayment of charges billed in excess of six months after the service was provided and that payments may be made under an installment payment plan. Any such installment plan will be consistent with the Customer's ability to pay and for a reasonable period of time that shall not be less than one month for each month represented by the late-billed charges, unless otherwise agreed to by the Customer. If requested by the Customer, the explanation for the late billing and the installment payment plan will be provided in writing. An adjustment to increase previously rendered bills more than 6 months after the time service was provided shall be made within 4 months of the final resolution of the billing dispute.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.18 Flexible Pricing

## 2.18.1 General

Flexible Pricing sets minimum and maximum rates that can be charged for telephone service. The Company may change a specific rate within the range of the established minimum and maximum rates on one days notice to Customers and the Public Service Commission.

## 2.18.2 Conditions

- .1 The Company reserves the right to change prices at any time subject to regulatory requirements by filing a revised Rate Attachment with the Commission.
- .2 Individual written notice to Customers of rate changes shall be made in accordance with Commission regulations. Where there are no regulations, notification will be made in a manner appropriate to the circumstances involved.
- .3 A rate shall not be changed unless it has been in effect for at least thirty (30) days.
- .4 A Customer can request that the Company disconnect service that is provided under the Flexible Pricing due to a price increase. The Customer will be credited for the difference between the new price and the old price retroactive to the effective date of the price increase if the Customer notifies the Company of its desire to disconnect service within twenty (20) days of receiving notification of the price increase.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.19 Automatic Number Identification

## 2.19.1 Regulations

The Company will provide Automatic Number Identification (ANI) associated with an intrastate service, by tariff, to any entity (ANI recipient), only under the following terms and conditions:

- .1 The ANI recipient or its designated billing agent may use or transmit ANI information to third parties for billing and collection, routing, screening, ensuring network performance, and completion of a telephone subscriber's call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction, or for performing a service directly related to the telephone subscriber's original call or transaction.

- .3 The ANI recipient or its designated billing agent is prohibited from utilizing ANI information to establish marketing lists or to conduct outgoing marketing calls, except as permitted by the preceding paragraph, unless the ANI recipient obtains the prior written consent of the telephone subscriber permitting the use of ANI information for such purposes. The foregoing provisions notwithstanding, no ANI recipient or its designated billing agent may utilize ANI information if prohibited elsewhere by law.
- .4 The ANI recipient or its designated billing agent is prohibited from reselling, or otherwise disclosing ANI information to any other third party for any use other than those listed in Provision 1, unless the ANI recipient obtains the prior written consent of the subscriber permitting such resale or disclosure.

SECTION 2.0 - REGULATIONS, (CONT'D.)

2.19 Automatic Number Identification, (Cont'd.)

2.19.1 Regulations, (Cont'd.)

- .5 Violation of any of the foregoing terms and conditions by any ANI recipient other than a Telephone Corporation shall result, after a determination through the Commission's complaint process, in suspension of the transmission of ANI by the Telephone Corporation until such time as the Commission receives written confirmation from the ANI recipient that the violations have ceased or have been corrected. If the Commission determines that there have been three or more separate violations in a 24 month period, delivery of ANI to the offending party shall be terminated under terms and conditions determined by the Commission.

2.19.2 Terms and Conditions

Violation of any of the foregoing terms and conditions by a Telephone Corporation may result in Commission prosecution of penalty and enforcement proceedings pursuant to Section 24, 25 and 26 of the Public Service Law.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.20 Schools and Libraries Discount Program

## 2.20.1 General

The Schools and Libraries Discount Program permits eligible schools (public and private, grades Kindergarten through 12) and libraries to purchase the Company services offered in this tariff at a discount rate, in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Public Service Commission in its Opinion and Order 97-11 Adopting Discounts for Services for Schools and Libraries, issued June 25, 1997. The Rules are codified at 47 Code of Federal Regulation (C.F.R.) 54.500 et. seq.

As indicated in the Rules, the discounts will be between 20 and 90 of the pre-discount price, which is the price of services to schools and libraries prior to application of a discount. The level of discount will be based on an eligible school or library's level of economic disadvantage and by its location in either an urban or rural area. A school's level of economic disadvantage will be determined by the percentage of its students eligible for participation in the national school lunch program, and a library's level of economic disadvantage will be calculated on the basis of school lunch eligibility in the public school district in which the library is located. A non-public school may use either eligibility for the national school lunch program or other federally approved alternative measures to determine its level of economic disadvantage. To be eligible for the discount, schools and libraries will be required to comply with the terms and conditions set forth in the Rules. Discounts are available only to the extent that they are funded by the federal universal service fund. Schools and libraries may aggregate demand with other eligible entities to create a consortium.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.20 Schools and Libraries Discount Program, (Cont'd.)

## 2.20.2 Regulations

- .1 Obligation of eligible schools and libraries
  - a. Requests for Service
    1. Schools and libraries and consortia shall participate in a competitive bidding process for all services eligible for discounts, in accordance with any state and local procurement rules.
    2. Schools and libraries and consortia shall submit requests for services to the Schools and Libraries Corporation, as designated by the FCC, and follow established procedures.
    3. Services requested will be used for educational purposes.
    4. Service will not be sold, resold or transferred in consideration for money or any other thing of value.
  2. Obligations of the Company
    - a. The Company will offer discounts to eligible schools and libraries on commercially available telecommunications services contained in this tariff. Those services contained in this tariff which are excluded from the discount program, in accordance with the Rules, are included as an attachment to this tariff.
    - b. The Company will offer services to eligible schools, libraries and consortia at prices no higher than the lowest price it charges to similarly situated non-residential Customers for similar services (lowest corresponding price.)
    - c. In competitive bidding situations, the Company may offer flexible pricing or rates other than in this tariff, where specific flexible pricing arrangements are allowed, subject to New York State Public Service Commission approval.

## 2.21 Health Care Providers Support Program

## 2.21.1 General

The purpose of the Health Care Providers Support Program is to enable public and nonprofit rural health care providers to have access to telecommunications services necessary for the provision of health care services at rates comparable to those paid for similar services in urban areas. The Health Care Providers Support Program offers eligible public and non-profit health care providers located in rural areas reduced rates for Company intrastate services available in this Tariff. Such services must be purchased in accordance with the Rules adopted by the Federal Communications Commission (FCC) in its Universal Service Order 97-157, issued May 8, 1997 and the New York State Public Service Commission in its Order in Cases 94-C-0095 and 28425, issued November 4, 1997. - .2 Reduced rates are available only to the extent that they are funded by the federal universal service fund.
- .3 Eligible rural health care providers may aggregate demand with other entities to create a consortium. Universal service support shall apply only to the portion of eligible services used by an eligible health care provider.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

  - b. Rural health care providers and consortia shall submit requests for services to the Program Administrator, as designated by the FCC, and follow established procedures.
  - c. Services requested must be used for purposes related to the provision of health care services or instruction that the health care provider is legally authorized to provide under the law.
  - d. A health care provider that cannot obtain toll free access to an Internet service provider and who is eligible for support for limited toll-free access under the Rules must certify that it lacks toll-free Internet access and that it is an eligible health care provider.
  - e. Services cannot be sold, resold or transferred in consideration for money or any other thing of value.
  
- .5 Responsibility of the Company
  - a. The Company shall offer the rates and charges as specified herein to eligible health care providers to the extent that facilities and services are available and offered in the Company's tariff.
  - b. The Company shall offer services to eligible rural health care providers and consortia at prices no higher than the highest urban rate as defined in the FCC Order and Rules.

## SECTION 2.0 - REGULATIONS, (CONT'D.)

## 2.21 Health Care Providers Support Program (Cont'd)

## 2.21.3 Rates and Charges

The following price adjustments will be available to eligible rural health care providers, except subparagraph 3., which shall be available to all eligible health care providers, regardless of location.

- .1 A reduced rate for telecommunications services, using a bandwidth capacity of up to 1.544 Mbps, not to exceed the highest tariffed or publicly available rate charged to a commercial Customer for a similar service provided over the same distance in the nearest city in New York State with a population of at least 50,000.
- .2 An exemption from some mileage charges for any telecommunications services, using a bandwidth capacity of up to 1.544 Mbps, that is necessary for the provision of health care services. The exempted mileage includes the distance between the rural health care provider and the most distant perimeter of the nearest city in New York State with a population of 50,000 or more, less the standard urban distance, which is the maximum average diameter of all cities with population of 50,000 or more in the state.
- .3 Each eligible health care provider that cannot obtain toll-free access to an Internet service provider is entitled to receive toll charge credits for toll charges imposed for connecting to an Internet service provider as per the FCC Rules. Such toll charges are available pursuant to applicable toll tariffs.

## Section 2 - REGULATIONS (Cont'd)

## 2.22 Emergency/Crisis/Disaster Restoration and Provisioning - Telecommunications Service Priority

## 2.22.1 General

- A. The Telecommunications Service Priority (TSP) Program is a federal program used to identify and prioritize telecommunications services that support national security or emergency preparedness (NS/EP) missions.

NS/EP services are defined as those telecommunications services which are used to maintain a state of readiness or respond to and manage any event or crisis which causes or could cause injury or harm to the population, damage or loss to property, or degrades or threatens the NS/EP posture of the United States.

TSP restoration and/or provisioning shall be provided in accordance with Part 64, Appendix A of the Federal Communications Commission's Rules and Regulations (47 C.F.R.), and the "Service Vendor Handbook For The Telecommunications Service Priority (TSP) Program" and the "Service User Manual for the Telecommunications Service Priority (TSP) System" (NCS Manual 3-1-1) (Service User Manual) issued and updated as necessary by the Office of Priority Telecommunications (OPT) of the National Communications System. Any changes to or reissuance of these regulations or manuals supersede tariff language contained herein.

- B. The TSP program has two components, restoration and provisioning.
- .1 A restoration priority is applied to new or existing telecommunications services to ensure restoration before any other services during a service outage. TSP restoration priorities must be requested and assigned before a service outage occurs.
  - .2 A provisioning priority is obtained to facilitate priority installation of new telecommunications services during a service outage. Provisioning on a priority basis becomes necessary when an end-user has an urgent requirement for a new NS/EP service that must be installed immediately or by a specific due date that can be met only by a shorter than standard or expedited Company provisioning time frame. As a matter of general practice, existing TSP services will be restored before provisioning new TSP services.

## Section 2 - REGULATIONS (Cont'd)

## 2.22 Emergency/Crisis/Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

## 2.22.2 TSP Request Process

## A. Restoration

To request a TSP restoration priority assignment, a prospective TSP user must:

- .1 Determine that the user's telecommunications service supports an NS/EP function under one of the following four TSP categories.

National Security Leadership  
National Security Posture and U.S. Population Attack Warning  
Public Health, Safety, and Maintenance of Law and Order  
Public Welfare and Maintenance of National Economic Posture

- .2 Identify the priority level to be requested for the telecommunications service. The priority level is determined by the end-user's TSP category and service profile. The service profile defines the user's level of support to the portion of the telecommunications service that the user owns and operates, such as customer premises equipment or wiring. The five levels of priority and seven element groups that define the service profile are contained in the Service User Manual.
- .3 Complete the TSP Request for Service Users form (SF 315) available on the National Communications System (NCS) website (<http://tsp.ncs.gov/>).
- .4 For non-federal users, have their TSP requests approved by a federal agency sponsor. Non-federal users should contact the OPT, at the NCS website (<http://tsp.ncs.gov/>), for information on identifying a sponsor for TSP requests.
- .5 Submit the SF 315 to the OPT.
- .6 Upon receipt of the TSP Authorization Code from the OPT, notify the Company, and include the TSP Authorization Code in any service order to the Company requesting restoration of NS/EP services.

## Section 2 - REGULATIONS (Cont'd)

## 2.22 Emergency/Crisis/Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

## 2.22.2 TSP Request Process, (Cont'd.)

## B. Provisioning

To request a TSP provisioning priority assignment, a prospective TSP user must follow the same steps listed in 2a. above for restoration priority assignment except for the following differences. The user should:

Certify that its telecommunications service is an Emergency service. Emergency services are those that support one of the NS/EP functions listed in 2a(a) above and are so critical that they must be provisioned at the earliest possible time, without regard to cost to the user.

Verify that the Company cannot meet the service due date without a TSP assignment.

Obtain approval from the end-user's invocation official to request a provisioning priority. Invocation officials are designated individuals with the authority to request TSP provisioning for a telecommunications service, and include the head or director of a federal agency, commander of a unified/specified military command, chief of a military service, commander of a major military command, or state governor.

## Section 2 - REGULATIONS (Cont'd)

## 2.22 Emergency/Crisis/Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

## 2.22.3 Responsibilities of the End-User

End-users or entities acting on their behalf must perform the following:

- A. Identify telecommunications services requiring priority.
- B. Request, justify, and revalidate all priority level assignments. Revalidation must be completed every 2 years, and must be done before expiration of the end-user's TSP Authorization Code(s).
- C. Accept TSP services by the service due dates.
- D. Have Customer Premises Equipment (CPE) and Customer Premises Wiring (CPW) available by the requested service due date and ensure (through contractual means or otherwise) priority treatment for CPE and CPW necessary for end-to-end service continuity.
- E. Pay the Company any authorized costs associated with priority services.
- F. Report to the Company any failed or unusable services with priority levels.
- G. Designate a 24-hour point of contact for each TSP request and apprise the OPT.
- H. Cooperate with the OPT during reconciliation (comparison of NS/EP service information and resolution of any identified discrepancies) and revalidation.

## Section 2 - REGULATIONS (Cont'd)

## 2.22 Emergency/Crisis/Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

## 2.22.4 Responsibilities of the Company

The Company will perform the following:

- A. Provide TSP service only after receipt of a TSP authorization code.
- B. Revoke TSP services at the direction of the end-user or OPT.
- C. Ensure that TSP Program priorities supersede any other telecommunications priority that may be provided (other than control services and order wires).
- D. Designate a 24-hour point of contact to receive reports of TSP service outages from TSP service users.
- E. Designate a 24-hour point of contact to coordinate TSP processes with the OPT.
- F. Confirm completion of TSP service order activity to the OPT.
- G. Participate in reconciliation of TSP information at the request of the OPT.
- H. Ensure that all subcontractors complete reconciliation of TSP information with the service vendor.
- I. Ensure that other carriers supplying underlying facilities are provided information necessary to implement priority treatment of facilities that support NS/EP services.
- J. Assist in ensuring that priority level assignments of NS/EP services are accurately identified "end-to-end" by providing to subcontractors and interconnecting carriers the restoration priority level assigned to a service.
- K. Disclose content of the NS/EP TSP database only as may be required by law.
- L. Comply with regulations and procedures supplemental to and consistent with guidelines issued by the OPT.

## Section 2 - REGULATIONS (Cont'd)

## 2.22 Emergency/Crisis/Disaster Restoration and Provisioning - Telecommunications Service Priority, (Cont'd.)

## 2.22.5 Preemption

When spare facilities are not available, it may be necessary for the Company to preempt the facilities required to provision or restore a TSP service. When preemption is necessary, non-TSP services may be preempted based on the Company's best judgment. If no suitable spare or non-TSP services are available, the Company may preempt an existing TSP service to restore a TSP service with a higher restoration priority assignment. When preemption is necessary, prior consent of the service user whose service will be preempted is not required; however, the Company will make every reasonable effort to notify the preempted customer of the action to be taken.

## SECTION 5.0 – INTRALATA TOLL USAGE AND MILEAGE CHARGES

## 5.1 GENERAL

## 5.1.1 Description

IntraLATA toll service is furnished for communication between telephones in different local calling areas within a particular LATA in accordance with the regulations and schedules of charges specified in this tariff. The toll service charges specified in this section are in payment for all service furnished between the calling and called telephone, except as otherwise provided in this Tariff.

IntraLATA toll calling includes the following types of calls: direct dialed, calling card, collect, 3rd number billed, special toll billing, requests to notify of time and charges, person to person calling and other station to station calls.

## 5.1.2 Classes of Calls

Service is offered as two classes: station to station calling and person to person calling.

- a. Station to Station Service is that service where the person originating the call dials the telephone number desired or gives the Company operator the telephone number of the desired telephone station or system.
- b. Person to Person Service is that service where the person originating the call specifies to the Company operator a particular person to be reached, a particular mobile unit to be reached, or a particular station, department or office to be reached. The call remains a person to person call when, after the telephone, mobile telephone, or PBX system has been reached and while the connection remains established, the person originating the call requests or agrees to talk to any person other than the person specified, or to any other agreed upon alternate.

SECTION 5.0 – INTRALATA TOLL USAGE AND MILEAGE CHARGES (CONT'D)

5.2 TIMING OF CALLS

Unless otherwise indicated, all calls are timed in one minute increments and all calls which are fractions of a minute are rounded up to the next whole minute.

For station to station calls, call timing begins when a connection is established between the calling telephone and the called telephone station.

For person to person calls, call timing begins when connection is established between the calling person and the particular person, station or mobile unit specified or an agreed alternate.

Call timing ends when the calling station "hangs up," thereby releasing the network connection. If the called station "hangs up" but the calling station does not, chargeable time ends when the network connection is released either by automatic timing equipment in the telephone network or by the Company operator.

Calls originating in one time period as defined in Section 5.3 and terminating in another will be billed the rates in effect at the beginning of each minute.

Section 5 - INTRALATA TOLL USAGE AND MILEAGE CHARGES (CONT'D)

5.3 TIME PERIODS DEFINED

Section 5 - INTRALATA TOLL USAGE AND MILEAGE CHARGES (CONT'D)

5.4 REGULATIONS AND COMPUTATION OF MILEAGE

Calls for which rates are mileage sensitive are rated on the airline distance between the originating rate center and the terminating rate center.

5.4.1 Originating Rate Center

A Customer's primary local exchange number includes an NXX code that is associated with a specific rate center. The originating point of all calls charged to that Customer's account shall be the location of the Customer's rate center.

5.4.2 Terminating Rate Center

The terminating point for all calls shall be the location of the local rate center associated with the called number.

5.4.3 Calculation of Mileage

Usage charges for all mileage sensitive products are based on the airline distance between serving wire centers associated with the originating and terminating points of the call. The serving wire centers of a call are determined by the area codes and exchanges of the origination and destination points.

## Section 5 - INTRALATA TOLL USAGE AND MILEAGE CHARGES (CONT'D)

## 5.4 REGULATIONS AND COMPUTATION OF MILEAGE (CONT'D)

## 5.4.3 Calculation of Mileage (Cont'd)

Airline mileage, where mileage is the basis for rating calls, is obtained by using the "V" and "H" coordinates assigned to each rate center and contained in NECA FCC Tariff No. 4 or successor tariffs. To determine the airline distance between any two locations, proceed as follows:

- a. Obtain the "V" and "H" coordinates for each location. The "V" coordinate is the first four digits in the "VH" column. The "H" coordinate is the next four digits.
- b. Obtain the difference between the "V" coordinates of each of the locations. Obtain the difference between the "H" coordinates.
- c. Square each difference obtained in step b., above.
- d. Add the square of the "V" difference and the "H" difference obtained in step c., above.
- e. Divide the sum of the square by 10. Round to the next higher whole number if any fraction is obtained.
- f. Obtain the square root of the whole number result obtained above. Round to the next higher whole number if any fraction is obtained. This is the airline mileage.

Formula:

$$\sqrt{\frac{(V_1-V_2)^2+(H_1-H_2)^2}{10}}$$

6.3 Public Telephone Surcharge

In order to recover the Company's expenses to comply with the FCC's pay telephone compensation plan effective on October 7, 1997 (FCC 97-371), an undiscountable per call charge is applicable to all intrastate calls that originate from any pay telephone, not presubscribed to the Company, used to access Company provided services. This surcharge, which is in addition to standard tariffed usage charges and any applicable service charges and surcharges associated with service, applies for the use of the instrument used to access Company provided service and is unrelated to the service accessed from the pay telephone.

Pay telephones include coin-operated and coinless phones owned by local telephone companies, independent companies and interexchange carriers. The Public Pay Telephone Surcharge applies to the initial completed call and any reoriginated call (e.g., using the "#" symbol). The Public Pay Telephone Surcharge does not apply to calls placed from pay telephones at which the Customer pays for service by inserting coins during the progress of the call.

Whenever possible, the Public Pay Telephone Surcharge will appear on the same invoice containing the usage charges for the surcharged call. In cases where proper pay telephone coding digits are not transmitted to the Company prior to completion of a call, the Public Pay Telephone Surcharge may be billed on a subsequent invoice after the Company has obtained information from a carrier that the originating station is an eligible pay telephone.

## 6.4 Optional Calling Features

The features in this section are made available to Residential and Business Customers on a per use basis. All features are provided subject to availability. Customers may utilize each feature by dialing the appropriate access code. The Customer will be billed the per feature activation charge shown in the table below each time a feature is used by the Customer. Transmission levels for calls forwarded or calls placed or received using optional calling features may not be acceptable for all some uses in some cases.

## 6.4.1 Feature Descriptions

Customers may also subscribe to the following Calling Features.

Anonymous Call Rejection - Allows a Customer to redirect incoming calls for which calling name and number display has been suppressed through the use of blocking to an announcement indicating that the Customer is not presently accepting calls.

Call Forwarding - Call Forwarding, when activated, redirects attempted terminating calls to another Customer-specific line. The Customer may have to activate and deactivate the forwarding function and specify the desired terminating telephone number during each activation procedure. Call originating ability is not affected by Call Forwarding. The calling party is billed for the call to the called number. If the forwarded leg of the call is chargeable, the Customer with the Call Forwarding is billed for the forwarded leg of the call. Calls cannot be transferred to an International Direct Distance Dialing number.

Call Forwarding -Busy - Permanently routes incoming calls to a predetermined telephone number when the called line is busy.

Call Forwarding - No Answer - Permanently routes incoming calls to a specified number, selected by the Customer, when the called line is unanswered.

## SECTION 6.0 - MISCELLANEOUS SERVICES AND RATES, (CONT'D.)

## 6.4 Optional Calling Features (Cont'd)

## 6.4.1 Feature Descriptions (Cont'd)

Call Return - Allows a Customer to return the most recent incoming call and, after dialing a code, hear an announcement of the last telephone number that called. If the Customer wishes to return the call right away, voice prompts will instruct the Customer to dial a certain digit and the call will automatically be returned.

Caller ID - Allows a Customer to see a caller's telephone number previewed on a display screen before the call is answered allowing a Customer to prioritize and or screen incoming calls. Caller ID records the number, date and time of each incoming call - including calls that aren't answered by the Customer. Caller ID service requires the use of specialized CPE not provided by the company. It is the responsibility of the Customer to provide the necessary CPE.

Call Waiting - Call Waiting provides a tone signal to indicate to a Customer already engaged in a telephone call that a second caller is attempting to dial in. This feature permits the Customer to place the first call on hold, answer the second call and then alternate between both callers.

Call Waiting ID - Call Waiting ID allows a Customer to see the name and telephone number of a second caller that is attempting to dial in.

Caller ID Blocking - Caller ID Blocking allows the Customer's phone number to be blocked from selected Caller ID units by dialing a code before the number being dialed.

Hunting - Routes a call to an idle station line in a prearranged group when the called station line is busy. This feature is available at no charge but must be requested by the Customer.

Repeat Dialing: Permits the Customer to redial automatically the last number dialed.

Speed Dialing 8 - Allows placing calls to eight (8) other phone numbers by dialing a one or two digit code rather than the complete phone number.

## SECTION 6.0 - MISCELLANEOUS SERVICES AND RATES, (CONT'D.)

## 6.4 Optional Calling Features (Cont'd)

## 6.4.1 Feature Descriptions (Cont'd)

Speed Dialing 30 – Allows placing calls to thirty (30) other phone numbers by dialing a one or two digit code rather than the complete phone number.

Three Way Calling - Permits the Customer to add a third party to an established connection. When the third party answers, a two-way conversation can be held before adding the original party for a three-way conference. The Customer initiating the conference controls the call and may disconnect the third party to reestablish the original connection or establish a connection to a different third party. The feature may be used on both outgoing and incoming.

## 6.8 Directory Listing Service

## 6.8.1 General

The following rates and regulations apply to standard listings in light face type in the white pages (alphabetical section) of the telephone directory and to the Directory Assistance records of the Company.

Directory listings are limited to such information as is essential to the identification of the listed party. The listing of a service, commodity, or trade name is not permitted unless it is the name, or an integral part of the name, under which the Customer does business.

A listing is limited to one line in the directory, except where in the judgment of the Company, more than one line is required to identify the Customer properly. In such cases, the additional lines required are provided at no extra charge.

Listing services are available with all classes of main telephone exchange service.

## 6.8.2 Listings

One listing, termed the initial listing is included with each Customer's service, and with the initial line of a line hunting group.

At a charge, additional listings may be included in the alphabetical directory and on directory assistance records, or appear on directory assistance records only. The additional directory listing charge commences with the delivery date of the issue of the directory in which the listing first appears. The monthly rate for an additional listing commences the day after the directory assistance records are posted.

If an additional listing is ordered discontinued by the Customer after the closing of the directory, the monthly rate continues through that issue of the directory and up to the date for rates to be effective for the next directory. If the additional listing is ordered discontinued before the closing date of the directory in which it would first appear the monthly rate continues only to the date of cancellation by the Customer, with a minimum service period of one month.

## 6.8.3 Types of Listings

## .1 Standard Listings

A standard listing is the type of listing which includes a name, designation, address and telephone number to appear in the Directory Assistance records and the alphabetical directory that covers the area where the telephone service is provided.

## .2 Alternate Telephone Number Listings

Any listed party who has made the necessary arrangements for receiving telephone calls during his absence may obtain an alternate telephone number listing such as the following:

- 1.1 If no answer call (telephone number)

- 1.3 Night calls after B P.M. (telephone number)
- 1.4 Nights, Sundays and holidays (telephone number)

## 6.8.4 Main Listings

- One listing for each order equipment installation with direct central office connections.
- Where more than one flat rate line is furnished to the same subscriber at the same address and billed on the same bill, a main listing may include the telephone number of any such line which is eligible to be listed under the provisions listed above.

## SECTION 6.0 - MISCELLANEOUS SERVICES AND RATES, (CONT'D.)

## 6.8 Directory Listing Service, (Cont'd.)

## 6.8.5 Nonpublished Service

The telephone numbers of non-published service are not listed in either the Company's alphabetical directory or Directory Assistance records available to the general public. The telephone numbers of non-published service or the name and billing address that corresponds to a non-published number may be divulged in the following two instances:

- First, in the interest of public safety, where a government agency subscribes to Enhanced Universal Emergency Telephone Number Service (E911) the telephone number and address, but not the name, of a customer with non-published service will be displayed when that customer dials 911 to a government employee at a console at a Public Safety Answering Point for dispatch of emergency service.
- Second, the billing name and address that correspond to a non-published telephone number will be furnished to a subscriber to Billing Name and Address (BNA) Service if the customer with the non-published service makes a call that uses the service of the BNA subscriber.

Incoming calls to non-published service will be completed by the Company only when the calling party places the call by number. The Company will adhere to this practice notwithstanding any claim the calling party may present, except claims of emergencies involving life and death. In such cases, the Company will call the non-published number and request permission to make an immediate connection to the calling party.

When the Company agrees to keep a number unlisted, it does so without any obligation. Except for cases of gross negligence or willful misconduct, the Company is not liable for any damages that might arise from publishing a non-published number in the directory or disclosing it to some. If, in error, the telephone number is published in the directory, the Company's only obligation is to credit or refund any monthly charges the Customer paid for non-published service.

The Subscriber indemnifies (i.e., promises to reimburse the Company for any amount the Company must pay as a result of) and save the Company harmless against any and all claims for damages caused or claimed to have been caused, directly or indirectly, by the publication of a non-published service or the disclosing of said number to any person.

## 6.9 Carrier Presubscription

## 6.9.1 General

Carrier Presubscription is a procedure whereby a Customer designates to the Company the carrier which the Customer wishes to be the carrier of choice for intraLATA and interLATA toll calls. Such calls are automatically directed to the designated carrier, without the need to use carrier access codes or additional dialing to direct the call to the designated carrier. Presubscription does not prevent a Customer who has presubscribed to an IntraLATA or InterLATA toll carrier from using carrier access codes or additional dialing to direct calls to an alternative long distance carrier on a per call basis.

6.9.2 Presubscription Options - Customers may select the same carrier or separate carriers for intraLATA and interLATA long distance. The following options for long distance Presubscription are available:

Option A: Customer selects the Company as the presubscribed carrier for IntraLATA and InterLATA toll calls subject to presubscription.

Option B: Customer may select the Company as the presubscribed carrier for IntraLATA calls subject to presubscription and some other carrier as the presubscribed carrier for interLATA toll calls subject to presubscription.

Option C: Customer may select a carrier other than the Company for intraLATA toll calls subject to presubscription and the Company for interLATA toll calls subject to presubscription.

Option D: Customer may select the carrier other than the Company for both intraLATA and interLATA toll calls subject to presubscription

Option E: Customer may select two different carriers, neither being the Company for intraLATA and interLATA toll calls. One carrier to be the Customer's primary intraLATA interexchange carrier. The other carrier to be the Customer's primary interLATA interexchange carrier.

Option F: Customer may select a carrier other than the Company for no presubscribed carrier for intraLATA toll calls subject to presubscription which will require the Customer to dial a carrier access code to route all intraLATA toll calls to the carrier of choice for each call.

## SECTION 6.0 - MISCELLANEOUS SERVICES AND RATES, (CONT'D.)

## 6.9 Carrier Presubscription, (Cont'd.)

## 6.9.3 Rules and Regulations

Customers of record will retain their primary interexchange carrier(s) until they request that their dialing arrangements be changed.

Customers of record or new Customers may select either Options A, B, C, D, E or F for intraLATA Presubscription.

Customers may change their selected Option and/or presubscribed toll carrier at any time subject to charges specified in 6.9.5 below:

## 6.9.4 Presubscription Procedures

A new Customer will be asked to select intraLATA and interLATA toll carriers at the time the Customer places an order to establish local exchange service with the Company. The Company will process the Customer's order for service. All new Customer's initial requests for intraLATA toll service presubscription shall be provided free of charge.

If a new Customer is unable to make selection at the time the new Customer places an order to establish local exchange service, the Company will read a random listing of all available intraLATA and interLATA carriers to aid the Customer in selection. If selection is still not possible, the Company will inform the Customer that he/she will be given 90 calendar days in which to inform the Company of his/her choice for primary toll carrier(s) free of charge. Until the Customer informs the Company of his/her choice of primary toll carrier, the Customer will not have access to long distance services on a presubscribed basis, but rather will be required to dial a carrier access code to route all toll calls to the carrier(s) of choice. Customers who inform the Company of a choice for toll carrier presubscription within the 90 day period will not be assessed a service charge for the initial Customer request.

Customers of record may initiate a intraLATA or interLATA presubscription change at any time, subject to the charges specified in 6.9.5 below. If a Customer of record inquires of the Company of the carriers available for toll presubscription, the Company will read a random listing of all available intraLATA carriers to aid the Customer in selection.
